Card Set

70 cards in "Sehnsucht — The card set"

A card game showing that longing is inseparable from culture: each card introduces a term for longing from a different language or tradition, explaining its meaning and cultural background side by side with the others.

At a glance

- Format: analogue card game with a rulebook, plus a free digital PDF
- Content: terms for longing across languages and cultural traditions
- Use: individual reflection or group workshops in political and intercultural education
- Availability: free download, or printed copies via KEB Rhineland-Palatinate

What the cards do

By placing culturally specific terms for longing side by side, the set invites comparison rather than translation — showing where concepts overlap and where each culture names something the others do not.
